Dear Mr. Proby

I appreciate that you Selected us, North Fork Elementary to participate in this informative field trip. The Emergency Operation Center (E.O.C) was magnificent.

This experience even help ^{very} me. This experience even helped me on my test. My class and I got a 100% on our Hurricane test. It was the best field trip anyone could ever have.

It was an phenomenal experience, I had. I was able to read out the reports from other groups. I was the planning leader.

Thankyou sooo much for allowing us too attend the Emergency Operation Center (E.O.C).

Sincerely Yvette Castillan

Dear Mr. Proby

Thank you for giving us the best experience at the (Emergency Operation Center), where no one is allowed to enter when ever they want. I liked that we or they got to be on tv which I am very happy for the people who did. I also liked that we got to go and get out of school and that we got to experience the events that happen when bad things happen to our town. I love the way they would give us ways to solve the dangerous insuaints that happen to the schools and hotels. I also loved the way you would give us our supplies in order to solve the problems. we enjoyed this very much. Thank you.

Sincerely, Daryl

Dear Mr. Proby,

Thank you for letting us go to the Emergency Operations Center. It was the best fieldtrip I ever had because I was able to be in a group with students that I don't usually get a chance to work with. We all learned how to prepare for Hurricane Elisa. When I was told that we were going to sit in the cool chairs I was over the moon. When I stepped in the building it was so beautiful. Thanks to the (EOS) I got to teach my mom about the hurricane Elisa. That was the best fieldtrip I ever had and I will love to come back.

Sincerely,
Tianna
