Mr. Proby
1321 SW 69th Ct
Miami, FL 33156

Dear Mr. Proby,

I had a phenomenal, interesting time
at the Emergency Operation Center (E.O.C.).
I appreciate that you selected us, North Fork,
to participate in that magnificent field trip.

This experience has even helped me
pass my Hurricane test with flying colors.
You taught me extra information I can use
during a hurricane. My whole class passed the
test because of you.

Thank you again Mr. Proby,
Christian Cunningham (Mayor)

Dear Bay Poby Storm zone,
I want to thank you for letting Dr. Banda's
7th grade classes participate in the
Emergency operation center and learn
about all the work that your people go
through during special events. It was
a very interesting experience and it was
really exciting even though the
environment there got crazier after each
trial I learned a lot.

Sincerely,

Sara De la Cruz

South Miami Middle 7th grade

Dear Mr. Bay Proby,

Thank you so much for inviting my classmates and I to the emergency control center. We had so much fun and we also learned alot. Now we know how hard it is to work their when something goes wrong. Thanks again.

Love,
Audrey Allen

Dear Bay Proby,

Thank you for letting our class
got to the Hurricane Emergency center.
Me and my class learned alot. One
thing I learned is to always
be ready for any situation.
You and your co-workers
made really understandable for us.
It was a great experience. Thank
you

Sincerely,
Kiana Hernandez
Dr. Banas Student

Dear Bay Proby,

- Thank You for the amazing experience at Storm Zone!

Storm Zone was one of the best field trips that I have ever been on. This was because it was and interactive, while being educational. I learned that to prepare for the beggining/middle/end of a storm is much harder than it looks, and that these people are under-appriciated. Without Storm Zone, the storms we had here wouldv'e been a lot worse. Thank you for all the help you gave to my group (external affairs). I know we were tough to handel. I might even consider having this as my career. Thanks so much.

Best Wishes,

Sofia Jimenez
(Dr. Banas 7th Grade)
